

STARS Modern Thinking For Education

Oops!

Sorry, I can't seem to find the document you are looking for. I've been told to say that my support team are working to update all of the documentation and are putting it on your system as soon as it becomes available so it could be that the document you want hasn't been released yet. However, I think that the Internet Gremlins have stolen it – they get everywhere these days. I'm going to have a quick look around to see if there's any sign of them, if they've got your document then they are going to be in serious trouble

Umm, there's no sign of the Gremlins so maybe the document really hasn't been released yet but I did find a sandwich I lost last week, a bit of a bonus for me anyway.

I'll take a note of this request and pass it on to my boss, he's normally a lot cleverer at this sort of thing than me.

If you need help now, please ring 0845 8386860

There's a human at the end of that phone who should be able to help you with any questions you have.

I'm going to eat my sandwich now but just ask if you need anything else from me.
